

PURPOSE

We are committed to creating community and peace of mind for each other. Together, we make life better.

COMMITMENTS

We are a supportive community providing our staff, residents, and their families an environment of independence, security, and wellness, at all stages of life.

We are a cooperative community where residents, family members, trustees, and staff are partners in friendly, open communication, with trust that we are all working to make life better for one another.

We are an active community providing a physically and an intellectually stimulating environment while encouraging lifelong personal growth.

We are a secure community where safety and quality is superior, and long-term financial sustainability and perpetuity is ensured through thoughtful decision making and risk calculation.

We are a caring community where staff and residents rely on one another to provide positive impact in both their RiverWoods community and the greater surrounding communities.

We are a well-managed community in which trustees, staff, and residents strive every day to fulfill their respective obligations to each other.

We are a forward-looking community dedicated to remaining leaders of excellence in senior living by continually evolving.
